Trying the site out with sample data

Fill the site with made-up members, kit and boats to try everything, then take every trace of them out in one press. Or try the demo club, where nothing you do touches your own club at all.

Where

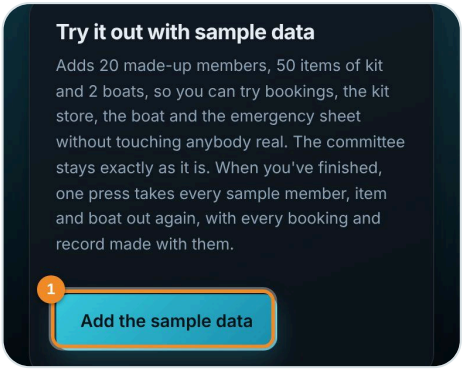

Members admin → Data, under **Try it out with sample data**.

Safe

Real members, kit and boats are never touched when the sample data is removed.

Adding it

1. **Press Add the sample data**
   20 made-up members, 50 items of kit (tags start TEST-) and 2 boats are added. The committee stays as it is. Confirm with **Add it**.
2. **Or bring your own test spreadsheets in**
   When you drop a members or kit spreadsheet in, tick **This is sample data for trying the site out** before you press Add. It's then removed with the rest.

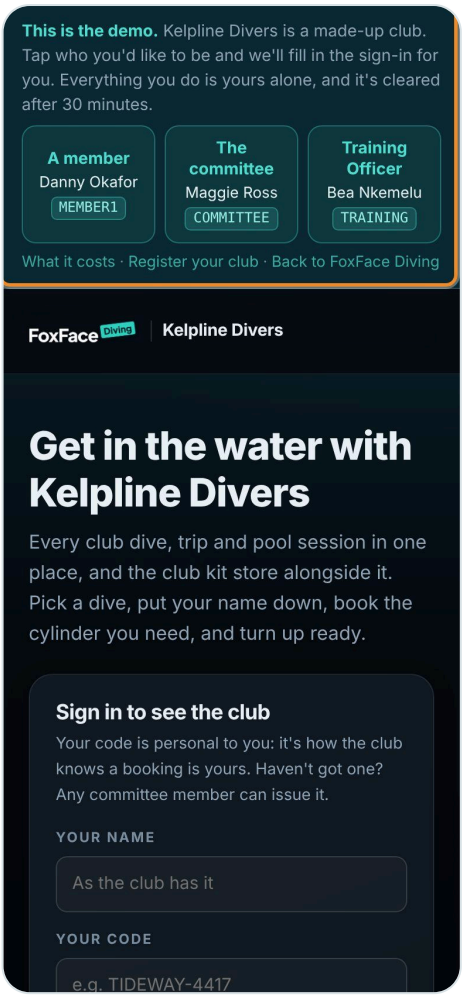

1 Add the sample data.

Removing it

1. **Press Remove all the sample data**
   Every sample member, item and boat goes, with every booking, charge and message made with them, including real members' bookings on sample kit.

The demo club

1. **clubs.foxface.io/demo/**
   A made-up club, Kelpline Divers, with a full calendar, kit store and boat. The sign-in names and codes are printed on the banner at the top: one member, one committee member and the Training Officer. Everyone who opens it gets their own copy, cleared after half an hour, so nothing you do there affects anyone.

1 the demo's banner with its sign-ins.

FoxFace Diving how-to guides, guide C11. Pictures are from Kelpline Divers, a made-up club; your club's site shows your own names and kit. Made by FoxFace. Version 2, October 2026.
