Choosing how the site looks

Pick a dark or light look, or one of the underwater ones, and the language the site is read in. Your choice is yours alone and stays on this phone or computer.

Where

The bottom of every page, in the footer.

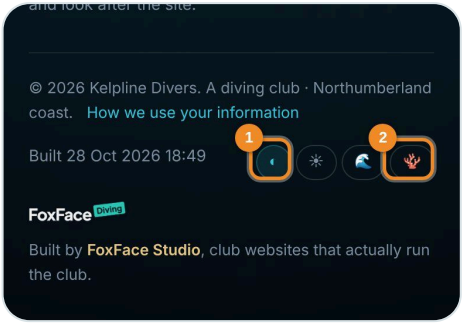

The club's default

The committee chooses what everybody sees who hasn't picked for themselves (guide C12). Your own choice always wins.

Changing it

1. **Scroll to the bottom of any page**
   Next to the build date are four small buttons: **Dark**, **Light**, **Underwater** and **Coral**. Tap one and the whole site changes straight away.

2. **Language**
   If your club has a language set up, a language picker sits beside them. Anything not yet translated stays in English.

1 Dark, 2 Coral: the look buttons in the footer.

On a shared computer

The choice is saved in the browser, not in your account, so the club laptop keeps whatever the last person picked.

FoxFace Diving how-to guides, guide M14. Pictures are from Kelpline Divers, a made-up club; your club's site shows your own names and kit. Made by FoxFace. Version 2, October 2026.
