Hiring club kit

How to ask for a cylinder, regulator, BCD, drysuit or anything else from the club's kit store, ask for several things at once, and give it back.

Where

Equipment hire (the **Kit Hire** tile on the home screen).

Who says yes

The Equipment Officer approves each request. You'll see the answer on this page and in your messages (the bell at the top).

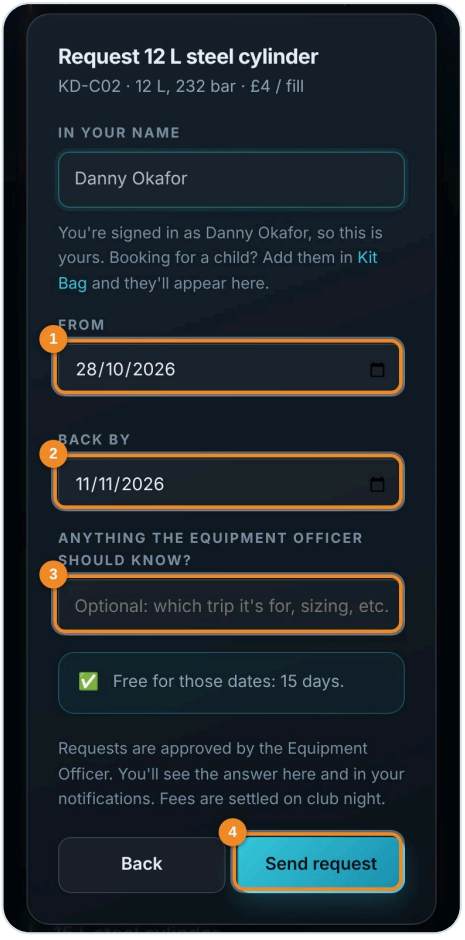

Asking for one thing

1. **Find the item and press Request this**

   Use the buttons along the top to show just cylinders, regulators and so on, or **Available now**. Every item shows its size, hire charge and when it's next due a test. Press **Request this**. If it's already out, the button says **Reserve for later**.

2. **Choose the dates and send**

   Set **From** and **Back by**. Add a note for the Equipment Officer if it helps, such as which trip it's for. The site checks the dates are free and shows the cost. Press **Send request**.

1 From, 2 Back by, 3 a note, 4 Send request.

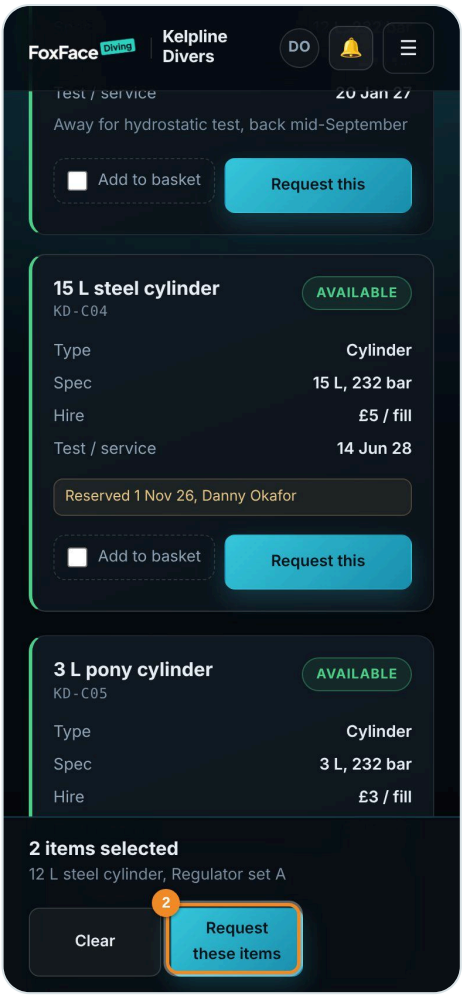

Asking for several things at once

1. **Tick Add to basket on each item**

   Tick **Add to basket** on everything you need. A bar appears at the bottom with what you've picked. Press **Request these items**: it goes as one request with one set of dates, and the Equipment Officer approves the lot in one go.

2. **Or take a whole set**

   If your club has set up packs, such as a trainee pack, press **Ask for this set** under **Take a whole set**. The site fills the basket with whichever cylinder, regulator and BCD are free, at the pack price. Then choose your dates as above.

1 Add to basket, 2 Request these items.

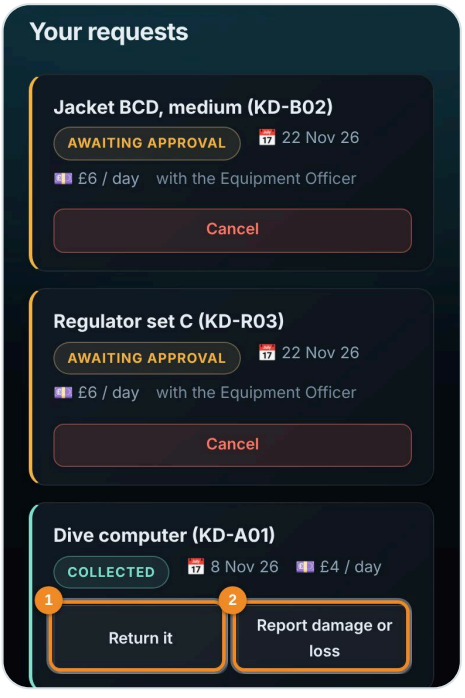

After you've asked

1. **Watch Your requests**

   At the top of the page, each request shows where it's got to: **awaiting approval**, **approved**, **collected**. Press **Cancel** if you no longer need it.

2. **Giving it back**

   When you return the kit, press **Return it** on the request, rinse and dry it, put it back in the right place, then press **Check it back in**. If something broke or went missing, press **Report damage or loss** and say what happened.

1 Return it, 2 Report damage or loss.

Grade needed?

Some items say, for example, **Sports Diver and above**. The button says **Not for your grade**: ask the Equipment Officer if you need one for training.

Paying

Hire is settled on club night. Nothing is charged through the site. If your club gives trainees or children a discount, the price shown already includes it.

Booking for a child

If the committee has put your child on the club's books, the request asks who it's for (guide M7).
