Booking the club boat

How to ask for a day on the club boat, and how to see the boat's diary.

Where

Clubboat (the **Boat Hire** tile on the home screen).

Who says yes

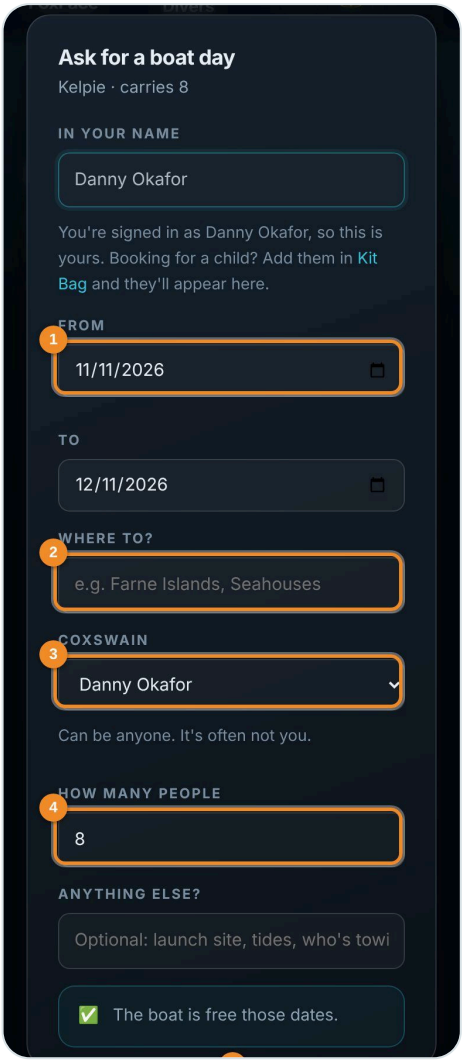

The Boat Manager approves boat days. You're told either way.

Asking for a boat day

1. **Press Ask for a day**
   The page shows each boat, how many it carries, where it's kept and whether it's on the water. Press **Ask for a day** on the boat you want.

2. **Fill in the day**
   Choose the dates, where you're going, who's driving (the coxswain, who can be anyone) and how many people. If there are more people than seats, the site works out how many trips that is. Add anything else, such as the launch site or who's towing, then press **Send request**.

3. **See it in the diary**
   Your request appears under **The diary** while the Boat Manager decides, and under **Your recent trips**. Press **Cancel** if plans change.

1 the dates, 2 where to, 3 coxswain, 4 how many people, 5 Send request.

Boat off the water?

If the boat is away for a service or repair, the page says so with the Boat Manager's reason, and you can't book it until it's back.

Damage on the day

If something gets damaged, press **Report damage** on the trip afterwards. The Boat Manager is told and decides what happens next.
