Seeing the site as a member sees it

Check what a particular member, or whoever holds a post, sees, without their code.

Where

Members admin → Membership, under **See it as somebody else sees it**.

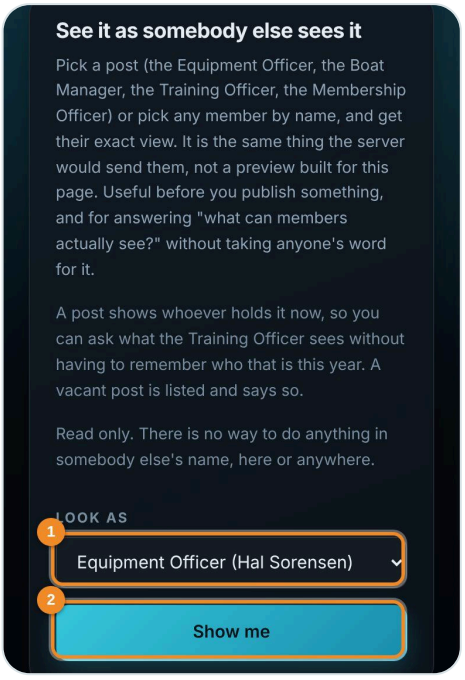

Read only

It is exactly what the server would send them, not a preview. Nothing is changed and nothing is booked in their name.

Looking

1. **Pick a post or a member**
   Choose the Equipment Officer, the Boat Manager, the Training Officer or the Membership Officer (whoever holds it now), or any member by name, and press **Show me**.

2. **What it's for**
   Checking before you publish something, and answering "what can members actually see?" without taking anyone's word for it.

1 look as, 2 Show me.

FoxFace Diving how-to guides, guide MS4. Pictures are from Kelpline Divers, a made-up club; your club's site shows your own names and kit. Made by FoxFace. Version 2, October 2026.
