What the evening is, and try dives from outside

Say what a pool night is for, whether anyone is teaching, and add someone from outside the club for a try dive so they're on the plan too.

Where

Members admin → **Training**, on each night.

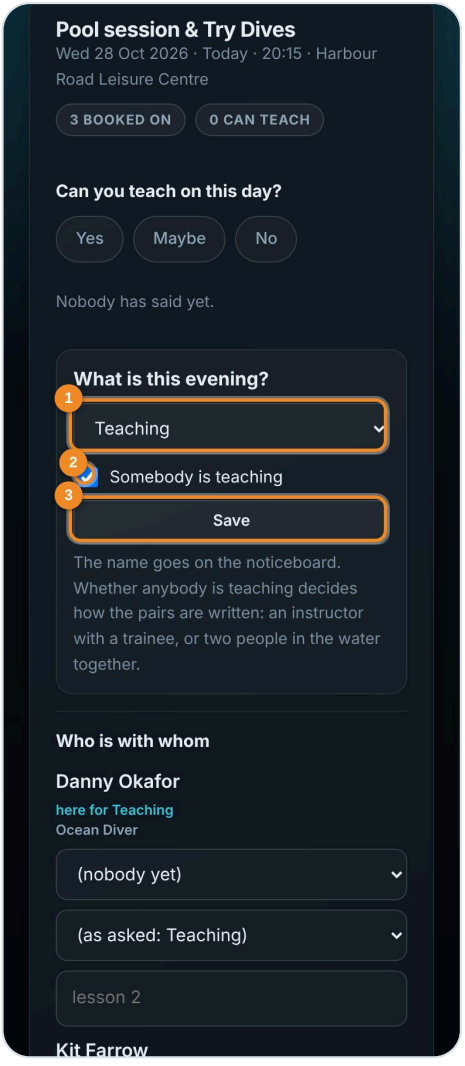

Why

Whether anybody is teaching decides how the pairs are written: an instructor with a trainee, or two people in the water together. The name of the evening goes on the noticeboard.

What is this evening?

1. **Pick one and save**
   Teaching, **Try dive**, **Snorkel experience**, **Fun dive**, **Buddy pairs** or something else in your own words. Tick **Somebody is teaching** if so, and press **Save**.

2. **Someone from outside**
   Under **Someone from outside**, type the guest's name and press **Add a try dive**. They appear in the pairs so an instructor can be put with them. They never get a sign-in.

1 what the evening is, 2 somebody is teaching, 3 Save, 4 the guest's name, 5 Add a try dive.

Members say what they're there for

When a member books a pool night, the site asks what they're there for (guide M17). Their answer shows beside their name on the Training tab.

FoxFace Diving how-to guides, guide T2. Pictures are from Kelpline Divers, a made-up club; your club's site shows your own names and kit. Made by FoxFace. Version 2, October 2026.
